

ANEMOMETER

DT-73A Mini Anemometer, which can measure air velocity and temperature.

- Quick response
- Max/Avg mode
- Wind power classification
- Low power display
- Auto power off

SPECIFICATION:

	Range	Accuracy	Resolution
Air Velocity Measurement	0.6 to 25 m/s	+0.5 +5% m/s	0.1 m/s
Temperature Measurement	-10° to 50°C (14° to 122°F)	±2°C (4°F)	0.1°C/°F

- Overload Prompt: Liquid Crystal displays “OL”
- Operating Temperature: 0° to 50°C (32 to 122°F)
- Operation Humidity: <80%RH
- Storage Temperature: -10° to 60°C (14 to 140°F)
- Storage Humidity: <80%RH
- Battery : 3 x AAA 1.5V Batteries
- ACCESSORIES: 3 x AAA 1.5V Batteries, Instruction Manual.

One year warranty against Any Manufacturing Defects.
